Don Roeber

**Vice President, Manager of Merchant PCI Compliance
Fifth Third Bank**

Don Roeber has worked in the Information Technology controls field since 1986, has been a Certified Information Systems Auditor since 1989 and recently achieved the Certified Payment Card Industry Security Manager and Auditor designations in November 2008. Don has spent the majority of his career with Bank of America where he worked in various roles, including Senior IT Audit Manager responsible for auditing the Bank's technology infrastructure, Business Continuity Manager for the Retail Bank line of business, and Technology Operational Risk Manager. More recently, Don has worked in the Payment Card Industry, initially with Chase Paymentech, and currently with Fifth Third Bank as Manager of Merchant PCI Compliance. Don has been a speaker at numerous card brand security events as well as industry security events and continues to participate with the major players in the payment industry to improve the security standards.
